Jinmin Dai

Summary

Committed job seeker with a history of meeting company needs with consistent and organized practices. Skilled in working under pressure and adapting to new situations and challenges to best enhance the organizational brand.

Project

- Gameboxd is a web-based application built using React that allows users to browse and play a variety of games while also providing a personalized experience. The app provides a platform for users to create and customize their profiles, save games they have played, and search for new games using the RAWG API. Deployed link - <https://gameboxed.herokuapp.com/>
- Groupie-gang is a comprehensive platform for music lovers, where they can search and discover upcoming music events, concerts, festivals, and live shows. With an easy-to-use interface and a vast database of events, users can find the perfect music event based on their location, favorite artists, and preferred genres. Whether you are looking for a night out with friends or a weekend full of music and fun, Groupie-gang is the go-to website for all your music event needs. Deployed link - <https://emmaparis.github.io/Groupie-Gang/>
- My portfolio using the react framework
- <https://alien-oyi.github.io/react-portfolio/>
