PROJECT

- Gameboxd is a web-based application built using React that allows users to browse and play a variety of games while also providing a personalized experience. The app provides a platform for users to create and customize their profiles, save games they have played, and search for new games using the RAWG API.

EXPERIENCE

STOCK TRADER | 06/2020 to 12/2022
Self Employed Web - Manhattan, NEW YORK
- Managed buy and sell orders for equities, options, and other securities using various trading platforms and tools, executed trades efficiently and accurately, and monitored market trends and news to make informed trading decisions.
- Conducted comprehensive market research to identify investment opportunities, analyzed market trends, economic indicators, and geopolitical factors that could impact stock prices, and incorporated research findings into trading strategies.
- Conducted in-depth research and analysis of individual stocks, sectors, and market trends using financial statements, technical analysis, and other relevant data to capitalize on investment opportunities.
- Implemented risk management strategies to protect against market volatility and limit potential losses, monitored and assessed risk exposures in the portfolio, and executed risk mitigation measures such as stop-loss orders and other risk management techniques.
- Mentored junior traders on strategies and best practices.

SERVER | 06/2017 to 05/2020
Howie Yang - Albany, NY
- Provided exceptional customer service by greeting and seating guests, taking food and drink orders, answering questions about the menu, making recommendations, and ensuring a positive dining experience for guests.
- Demonstrated a comprehensive understanding of the menu, including ingredients, preparation methods, and special dietary considerations, and effectively communicated menu details and options to guests, including recommendations based on their preferences and dietary restrictions.
- Worked collaboratively with kitchen staff, bartenders, hosts/hostesses, and other servers to ensure smooth restaurant operations, coordinated food and drink service timing, communicated special requests or modifications from guests to kitchen staff, and assisted colleagues as needed.
- Addressed and resolved guest complaints or issues in a prompt and professional manner, followed restaurant policies and procedures for handling guest concerns, and ensured guest satisfaction through effective problem resolution.
- Led and managed a team of restaurant staff, including servers, bartenders, hosts/hostesses, and kitchen staff, providing direction, coaching, and support to achieve a goal of providing the best service and ensure smooth operations.

SUSHI CHEF | 03/2015 to 04/2017
Steven Chen - New York, NY
- Assembled custom sushi rolls at request of customer.
- Ensured compliance with food safety and sanitation regulations, implemented, and maintained proper food handling and storage practices, conducted regular inspections, and addressed any food safety issues promptly and effectively.
- Developed and implemented sales and marketing strategies to attract and retain customers, increased restaurant revenue through effective menu pricing, promotions, and upselling techniques, and analyzed sales data to identify areas for improvement.
- Conducted sushi training programs for new and existing staff on restaurant policies, procedures, and service standards, provided coaching and feedback to improve performance, and promoted a positive and collaborative team culture.
